

Company Profile :

- Suzlon Group takes pride in creating enduring value through sustainable development. It strongly believes in connecting its core capabilities to provide optimum renewable energy solutions. The Group is one of the leading global renewable energy solution providers. Apart from being a technology leader, Suzlon endeavours to protect the environment, strengthen communities and propel responsible growth – a paradigm of Corporate Social Responsibility. The Group has long been driven by the concept of sustainable development, its wind turbines with a **total installed capacity of ~15GW spread across six continents**, standing as sentinels of a pollution free environment we can bequeath to the next generation.
- Suzlon is a market leader in India with a global footprint across **Asia, Australia, Europe, Africa, North and South America**. Over the past two decades, Suzlon has built and consolidated its presence in **19 countries. Suzlon's global wind installations help in reducing over 32 million tons of CO2 emissions every year**. The Company has 14 manufacturing facilities spread across India, China (Joint Venture) and America. Having a dynamic workforce of over 8,000 employees, Suzlon is proud to support a culture in which employees are respected and empowered as the company's most valued assets.
